

# CHECKLIST ENVIRONMENTAL ASSESSMENT

<b>Project Name:</b> Lease #4800 – Livestock Water Improvement	<b>Proposed Implementation Date:</b> August 11, 2006
<b>Proponent:</b> 5 R Land and Cattle Inc. PO Box 26, Galata, MT 59444	
<b>Type and Purpose of Action:</b> The surface lessee has requested to install 2 pit / reservoirs for livestock water. This improvement entail digging out a 30' X 30' area in Trail Creek. This will allow ground water to fill pits to provide livestock water. Also the pits will fill when Trail creek flows.	
<b>Location:</b> S½, Sec 12, T34N, R3E	<b>County:</b> Toole

## I. PROJECT DEVELOPMENT

1. PUBLIC INVOLVEMENT, AGENCIES, GROUPS OR INDIVIDUALS CONTACTED: Provide a brief chronology of the scoping and ongoing involvement for this project.	None
2. OTHER GOVERNMENTAL AGENCIES WITH JURISDICTION, LIST OF PERMITS NEEDED:	There are no other agencies with jurisdiction on this project.
3. ALTERNATIVES CONSIDERED:	Approve the improvement.  No action.

## II. IMPACTS ON THE PHYSICAL ENVIRONMENT

RESOURCE	[Y/N] POTENTIAL IMPACTS  N = Not Present or No Impact will occur. Y = Impacts may occur (explain below)
4. GEOLOGY AND SOIL QUALITY, STABILITY AND MOISTURE: Are fragile, compactible or unstable soils present? Are there unusual geologic features? Are there special reclamation considerations? Are cumulative impacts likely to occur as a result of this proposed action?	[N] Soils and geology in this area are suitable for pit development. A limited amount of soil disturbance will occur during construction, but the area will be reclaimed. Cumulative impacts on soil resources are not expected.
5. WATER QUALITY, QUANTITY AND DISTRIBUTION: Are important surface or groundwater resources present? Is there potential for violation of ambient water quality standards, drinking water maximum contaminant levels, or degradation of water quality? Are cumulative impacts likely to occur as a result of this proposed action?	[N] The proposed action will not impact water quality or quantity. Water will not be dammed or impounded. Water quantity for livestock and wildlife will be increased.
6. AIR QUALITY: Will pollutants or particulate be produced? Is the project influenced by air quality regulations or zones (Class I airshed)? Are cumulative impacts likely to occur as a result of this proposed action?	[N] The proposed action will not impact air quality.
7. VEGETATION COVER, QUANTITY AND QUALITY: Will vegetative communities be permanently altered? Are any rare plants or cover types present? Are cumulative impacts likely to occur as a result of this proposed action?	[N] Existing vegetation will be temporarily disturbed during construction, but it will be small scale and will be reclaimed and revegetated. Because this development will provide a reliable source of livestock, overall livestock distribution will be improved.

<b>II. IMPACTS ON THE PHYSICAL ENVIRONMENT</b>	
8. TERRESTRIAL, AVIAN AND AQUATIC LIFE AND HABITATS: Is there substantial use of the area by important wildlife, birds or fish? Are cumulative impacts likely to occur as a result of this proposed action?	[N] Construction activities may temporarily displace local wildlife, but no long-term impacts are expected. The project will provide water for resident wildlife. Overall, no long-term negative effects on existing wildlife species and/or wildlife habitat are expected.
9. UNIQUE, ENDANGERED, FRAGILE OR LIMITED ENVIRONMENTAL RESOURCES: Are any federally listed threatened or endangered species or identified habitat present? Any wetlands? Sensitive Species or Species of special concern? Are cumulative impacts likely to occur as a result of this proposed action?	[N] There are no species of special concern or any other sensitive habitat types associated with the proposed project area.
10. HISTORICAL AND ARCHAEOLOGICAL SITES: Are any historical, archaeological or paleontological resources present?	[N] Cultural resources will not be impacted by this proposed project. No cultural resources were found during a site inventory completed on August 11, 2006.
11. AESTHETICS: Is the project on a prominent topographic feature? Will it be visible from populated or scenic areas? Will there be excessive noise or light? Are cumulative impacts likely to occur as a result of this proposed action?	[N] The aesthetic character of the land will not be impacted.
12. DEMANDS ON ENVIRONMENTAL RESOURCES OF LAND, WATER, AIR OR ENERGY: Will the project use resources that are limited in the area? Are there other activities nearby that will affect the project? Are cumulative impacts likely to occur as a result of this proposed action?	[N] The demand on environmental resources such as land, water, air, or energy will not be affected by the proposed action. The proposed action will not consume resources that are limited in the area. There are no other projects in the area that will affect the proposed project.
13. OTHER ENVIRONMENTAL DOCUMENTS PERTINENT TO THE AREA: Are there other studies, plans or projects on this tract? Are cumulative impacts likely to occur as a result of other private, state or federal current actions w/n the analysis area, or from future proposed state actions that are under MEPA review (scoping) or permitting review by any state agency w/n the analysis area?	[N] Currently, there are no other studies, plans, or projects associated with the proposed project area.

<b>III. IMPACTS ON THE HUMAN POPULATION</b>	
<b>RESOURCE</b>	<b>[Y/N] POTENTIAL IMPACTS AND MITIGATION MEASURES</b>
14. HUMAN HEALTH AND SAFETY: Will this project add to health and safety risks in the area?	[N] The proposed water development will not affect human health or human safety in the area.
15. INDUSTRIAL, COMMERCIAL AND AGRICULTURAL ACTIVITIES AND PRODUCTION: Will the project add to or alter these activities?	[Y] The proposed improvement will improve livestock distribution and generally improve the lessee's ranching opportunities and use of this state lease.
16. QUANTITY AND DISTRIBUTION OF EMPLOYMENT: Will the project create, move or eliminate jobs? If so, estimated number. Are cumulative impacts likely to occur as a result of this proposed action?	[N] The proposed action will not significantly affect long-term employment in the surrounding communities.
17. LOCAL AND STATE TAX BASE AND TAX REVENUES: Will the project create or eliminate tax revenue? Are cumulative impacts likely to occur as a result of this proposed action?	[N] The proposed action will not affect tax revenue.
18. DEMAND FOR GOVERNMENT SERVICES: Will substantial traffic be added to existing roads? Will other services (fire protection, police, schools, etc) be needed? Are cumulative impacts likely to occur as a result of this proposed action?	[N] None.
19. LOCALLY ADOPTED ENVIRONMENTAL PLANS AND GOALS: Are there State, County, City, USFS, BLM, Tribal, etc. zoning or	[N] The proposed action is in compliance with State and

management plans in effect?	County laws. No other management plans are in effect for the area.
20. ACCESS TO AND QUALITY OF RECREATIONAL AND WILDERNESS ACTIVITIES: Are wilderness or recreational areas nearby or accessed through this tract? Is there recreational potential within the tract? Are cumulative impacts likely to occur as a result of this proposed action?	[N] This tract of state land has limited recreational value. This tract of State Land is isolated and not legally accessible to the public. The proposed action is not expected to impact general recreational activities on this State Land.
21. DENSITY AND DISTRIBUTION OF POPULATION AND HOUSING: Will the project add to the population and require additional housing? Are cumulative impacts likely to occur as a result of this proposed action?	[N] The proposed action will not change the human population distribution or the housing requirements in the area.
22. SOCIAL STRUCTURES AND MORES: Is some disruption of native or traditional lifestyles or communities possible?	[N] The proposed action will not alter the social structure of surrounding native communities.
23. CULTURAL UNIQUENESS AND DIVERSITY: Will the action cause a shift in some unique quality of the area?	[N] The proposed action will not impact the cultural uniqueness and/or the cultural diversity of the area.
24. OTHER APPROPRIATE SOCIAL AND ECONOMIC CIRCUMSTANCES: Is there a potential for other future uses for easement area other than for current management? Is future use hypothetical? What is the estimated return to the trust. Are cumulative impacts likely to occur as a result of this proposed action?	[N] No other unique circumstances exist.

Title

Date: August 12, 2001

IV. FINDING	
25. ALTERNATIVE SELECTED:	Authorize improvement
26. SIGNIFICANCE OF POTENTIAL IMPACTS:	Significant impacts will not occur as a result of implementing the proposed project. The project will have very limited impact and there are no threatened or endangered species or unique habitat associated with this tract.
27. Need for Further Environmental Analysis: <input type="checkbox"/> EIS <input type="checkbox"/> More Detailed EA <input type="checkbox"/> No Further Analysis
